

*Supporting businesses to get business*

**SCHOOLS SUMMER WORKS TENDERS 2021**

## INTRODUCTION

The purpose of the School Summer Works Scheme is to devolve funding to individual school authorities to undertake small-scale building works which, ideally, can be carried out during the summer months or at other times that avoid disrupting the operation of the school. Under the terms of the scheme, school authorities are empowered to manage these works with guidance from and minimal interaction with the Department.

Funding for small scale projects is allocated in accordance with the prioritisation criteria attaching to the scheme which, in the normal course, include the ability to have the works carried out during the summer.

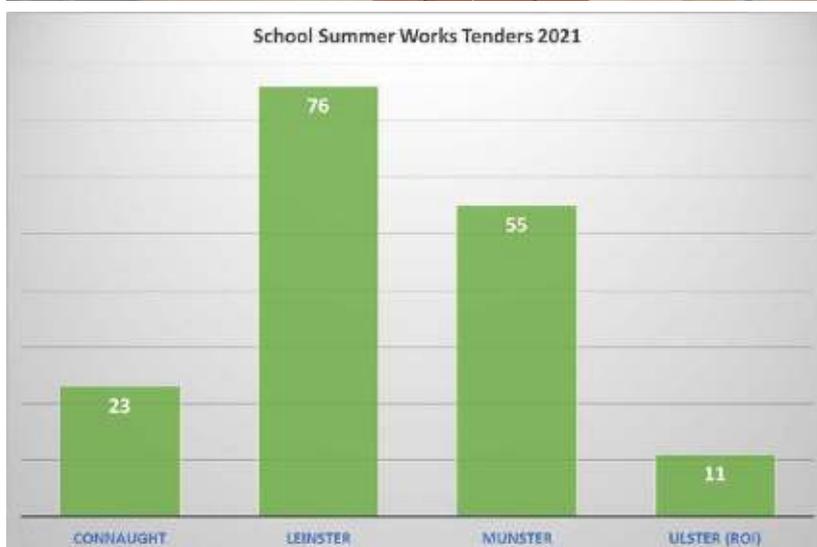

The listing below outlines tenders which have been advertised on the CIS database between the dates of the 1st of April 2021 and the 4th June 2021. We expect to see many more tenders advertised in the month of June for these vital improvement works to be carried out on our school stock.

Take a [trial](#) of the CIS system today to see how these tender opportunities can be of benefit to your business.
